## OUR ERASMUS+ PROJECT MARINE FOOTPRINTS - PROTECTING THE MEDITERRANEAN SEA

- Raise students' awareness of the importance of improving and protecting our coastline, empowering them as agents of change to mitigate the environmental and socio-economic consequences of climate change in our region.
- Improve students' English language skills to reduce cultural and social inequality, enhancing their academic, social, and professional opportunities.
- Enhance the digital skills and competences of our students at all levels.
